

**Academic Echocardiographer
University of Ottawa Heart Institute
Ottawa, Canada**

The Division of Cardiology at the University of Ottawa Heart Institute seeks application for a full-time cardiologist with specialization in echocardiography.

The University of Ottawa Heart Institute is a large tertiary centre providing cardiovascular care to Eastern Ontario and Western Quebec. The successful applicant would join a group of eight Level 3 echocardiographers. The echocardiography laboratory performs over 25,000 studies a year, including more than 800 stress echocardiograms and approximately 1000 transesophageal echocardiograms. The facilities include state-of-the-art echocardiography systems and a Royal College of Physicians and Surgeons accredited Level 3 Adult Echocardiography Fellowship Training Program. As well, the Ottawa Heart Institute has a large imaging team with dedicated cardiac CTA, SPECT, PET and MRI facilities.

The city of Ottawa provides a thriving multicultural and bilingual environment. Ottawa boasts numerous cultural activities as well as readily accessible sporting and natural resources, making it an ideal family and healthy living environment.

Candidates must hold FRCPC certification in Cardiology or equivalent specialty certification and have Level 3 training in echocardiography. Preference would be given to candidates who have had training in echocardiographic imaging in valvular heart disease and have had involvement in valvular heart disease research with an interest in pursuing a clinician investigator position. Practice profile will be negotiated based on expected academic and clinical deliverables. Academic appointment ranking will be based on qualifications and experience.

Interested applicants should forward their curriculum vitae and the names of three potential references (suitable candidates will later be asked to provide three letters of reference) to:
