The Opportunity

The Peterborough Regional Health Centre is seeking an Interventional Cardiologist to join our growing Regional Cardiovascular Centre of Excellence. The PRHC Cardiac Catheterization Laboratory annually performs:

- > 2000 diagnostic angiograms
- > 950 PCIs
- > 225 STEMIs

Our newly installed state of the art Phillips Azurion labs have a full range of interventional tools, including Rotational and Orbital Atherectomy along with co-registered OCT, IVUS and iFR/FFR.

The successful candidate would join an existing group of three Interventional Cardiologists providing a full range of

simple to complex coronary procedures. Interventional Cardiologists also work as part of the broader general cardiology group, providing inpatient MRP care in the ICU and telemetry ward as well as consultative services throughout the hospital. The desire to maintain an outpatient office and participate in the PRHC Chest Pain and Rapid Access clinics would be an asset to interested candidates.

Position Qualifications:

- Strong interpersonal skills and ability to work effectively in a multidisciplinary team and with the community at large
- Ability to integrate current evidence and best practice into delivering quality care
- Demonstrated excellence in technical and analytical aspects of diagnostic cardiac catheterization and percutaneous coronary angioplasty, including the management of high acuity patients.
- Enthusiasm for ongoing skill development in more advanced angioplasty techniques
- Proficiency in general cardiology including technical and cognitive skills required for acute management of ACS, CHF, cardiogenic shock and arrhythmias
- Demonstrated ability to provide patient care to people from diverse populations in a considerate and respectful manner
- Eligible for an unrestricted independent practice license with the College of Physicians and Surgeons of Ontario
- Fellow of the Royal College of Physicians and Surgeons of Canada
- Eligible for staff privileges at Peterborough Regional Health Centre

Work Better

PRHC is a regional hospital delivering acute healthcare to a rapidly growing population of more than 300,000 in Peterborough and the surrounding communities, including the First Nations of Curve Lake, Alderville and Hiawatha.

The Health Centre is located in Peterborough Ontario, a 90-minute drive north-east of Toronto – and has a proud local history extending back over a century. We are the region's largest employer with more than 2,500 staff, 400 physicians with privileges and 500 volunteers.

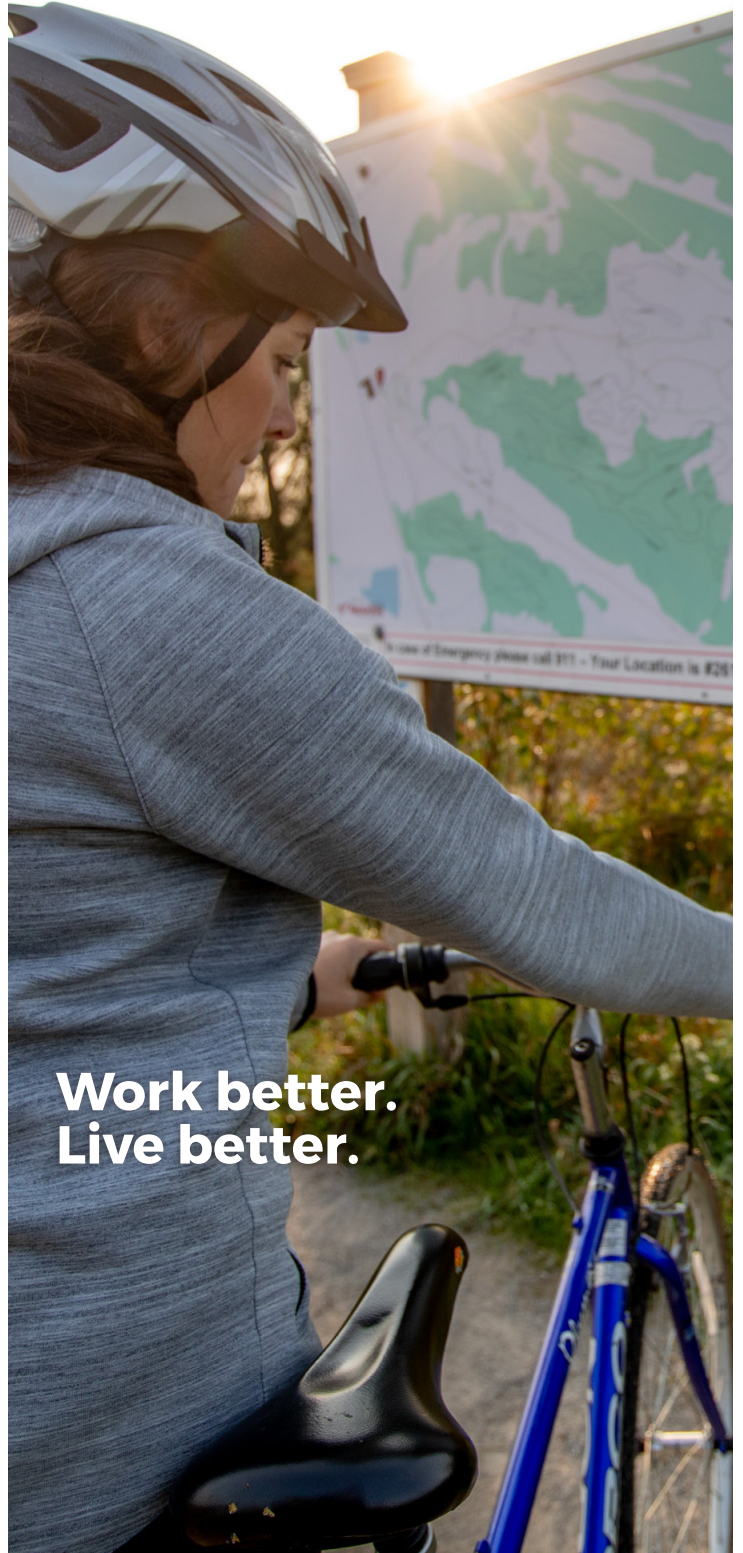

PRHC has over 450 inpatient beds, including a 28 bed ICU, and offers a wide range of services, including specialized programs in cardiac care, stroke, vascular surgery, nephrology/hemodialysis, geriatrics and mental health. The region has a large proportion of geriatric residents who have an increasing need for complex cardiac services to be delivered locally.

Live Better

In Peterborough, you'll be as close to the great outdoors as you are to work, schools and other amenities. The lakes of cottage country are as close as 20 minutes away, and an extensive network of cycling trails and waterways run through the region. In winter, there is ample opportunity for cross-country and downhill skiing, snowmobiling and ice skating.

Our arts and culture community is renowned for its exceptional events, exhibitions and performances, and the city offers a wide array of multicultural cuisine, local cafés, and unique shops.

Local schools offer high quality education, with specialized programs in French immersion, Montessori, AP high school credits, IB program and outdoor education.

**Work better.
Live better.**
