

CCS 2022 Guidelines for Peripheral Arterial Disease

Panel Member's Relationships with Industry (RWI)

The CCS is committed to preserving the scientific integrity of its Guidelines and Position Statements through transparency and management of relationships with industry (RWI). Panel members must disclose all relationships with industry regardless of relevance to the statement topic (see below). When a potential conflict exists, the affected member must recuse during the formal consensus voting process. For more information on the CCS Guideline Development process, please visit www.ccs.ca.

Elisa Greco	Gore, Think Research	None	None	I have not been remunerated from the company in more than 2 years. In addition it is strictly for AV access devices and not at all related to Peripheral Vascular Disease. I have consulted in the past 2 years on standardized medical order sets for vascular surgery patients for Think Research.
Randolph Guzman	None	None	None	
Christine Herman	None	Cook for EVAR trial. enrolment done	None	Unrelated
Mohamad A. Hussain	None	None	None	
Victor F. Huckell	HLS	None	None	1. Because of work with CMPA I have declined all Pharmaceutical or Device Company activities for the last three years. I participated in one educational session on a new lipid agent which has no relevance to PAD 2. I am on CMPA Council -- this has no conflict with guideline development, rather is supportive of the process.
Prasad Jetty	Bayer, Boston Scientific, Cook Medical, LeMaitre, Medtronic	None	None	Xarelto (Bayer) is used in the management of PVD and treatment and prevention of MACE and MALE events; the rest are unrelated.
Eric Kaplovitch	None	None	None	
Erin Karlstedt	None	None	None	
Ahmed Kayssi	None	Medtronic	None	I am the primary investigator on an Medtronic-sponsored trial examining the role of cyanoacrylate glue for the treatment of venous leg ulcers. The subject of this study has no relation to peripheral arterial disease.
