

 **CCS/CHFS Clinical Practice Update: HF Phenotype Pathway**
Panel Member Disclosures
August 2023

The CCS is committed to preserving the scientific integrity of its Guidelines, Clinical Practice Updates and Position Statements through transparency and management of disclosures (industry, academic, financial benefits and other conflicts). Invited and approved panel members must disclose all relationships regardless of relevance to the topic. When a potential conflict exists, the affected member must recuse during the formal consensus voting process. For more information on the CCS Guideline Development process, please visit

Affiliations with commercial organizations or clinical trials within the previous two years that may have a direct or indirect connection to the content of this statement are disclosed here.
