

CCS/CSCS/CSVS/CAIR Clinical Practice Update: The Aortic Team Model and Collaborative Decision Pathways for the Management of Complex Aortic Disease - A Multi-Society Expert Consensus

Panel Member Disclosures

November , 2023

The CCS is committed to preserving the scientific integrity of its Guidelines, Clinical Practice Updates and Position Statements through transparency and management of disclosures (industry, academic, financial benefits and other conflicts). Invited and approved panel members must disclose all relationships regardless of relevance to the topic. When a potential conflict exists, the affected member must recuse during the formal consensus voting process. For more information on the CCS Guideline Development process, please visit www.ccs.ca. Updated March 8, 2023.

Affiliations with commercial organizations or clinical trials within the previous two years that may have a direct or indirect connection to the content of this statement are disclosed here.
