

RICHARD ROWE RESEARCH PRIZE GUIDELINES

The Richard Rowe Research Prize is presented annually to an individual for outstanding research in heart disease in children undertaken during training.

Eligibility Criteria:

Applicants may be from all levels of trainees including Residents, Fellows, Graduate or Medical students, and must:

- 1) Attend a Canadian institution or Canadian training abroad, and be either in training or completed training within the twelve months prior to submission;
- 2) Have done research related to heart disease in children; and
- 3) Have had significant conceptual input into its development and have largely performed the research.

Regulations and Oral Presentation:

Candidates must submit an abstract via the CCC Abstract Submission Portal. When submitting your abstract you must indicate Pediatric Cardiology as the section classification and indicate that you would like to be considered for the Richard Rowe Research Prize under the 'Recognition, Awards, & Bursaries' task.

Abstracts that are accepted for presentation at CCC that are submitted to the Richard Rowe Research Prize will be considered.

Entries not selected for this competition will be eligible for the other scientific sessions based on evaluation of the accompanying abstract.

Presentations will be 10 minutes, with a five-minute question period. Please note the CPCA reserves the right to select fewer than three papers, or to award no prize if entries are of insufficient quality.

Award Prize:

The winner of the award will be announced at the CCC following the Richard Rowe Session presentations. The winner will receive a \$500 cash award and an honorary plaque.

A call will go out annually to all CPCA members adhering to the CCS Call for Science deadline for Abstract submissions.
